I am an Honours graduate (BSc Economics) and a current Master's student (MSc Energy, Economics and Finance) in my final semester at Eastern Mediterranean University in North Cyprus. I am confident in my abilities to contribute significantly to any organisation in the areas of the Energy, Economics and Financial sectors. I work well under pressure. I am always willing to take on new tasks. This includes thinking outside the barriers of conformity. I hold strong values in being efficient, innovative and I embrace the qualities of honesty and integrity. My objective is to continually provide updated market information of the latest economic trends. For this reason, my aim is to pursue a Doctorate in the field of Energy, Economics and Finance. I have faith in my capabilities to pursue and accomplish personal and organisational objectives.
